To Be the Best We Can Be Together

St George's RC Primary School Intimate Care Policy

Updated January 2020

The St George's RC Primary School Safeguarding Children Statement

At St George's RC Primary School the welfare of all children is of paramount importance. We recognise that :

- All children, regardless of age, disability, gender, racial heritage, religious beliefs, sexual orientation or identify have the right to equal protection from all types of harm or abuse.
- Working in partnership with children, young people and their parents, carers and other agencies, is essential in promoting young people's welfare.

This policy represents the agreed principles for intimate care throughout the school.

Introduction

This policy has been agreed by all staff and governors within the school.

The purpose of this policy is:

- To safeguard the rights and promote the best interests of the children
- To ensure children are treated with sensitivity and respect, and in such a way that their experience of intimate care is a positive one
- To safeguard adults required to operate in sensitive situations
- To raise awareness and provide a clear procedure for intimate care
- To inform parents/carers in how intimate care is administered
- To ensure parents/carers are consulted in the intimate of care of their children

Principles

It is essential that every child is treated as an individual and that care is given as gently and as sensitively as possible. As far as possible, the child should be allowed to exercise choice and should be encouraged to have a positive image of his/her own body. It is important for staff to bear in mind how they would feel in the child's position. Given the right approach, intimate care can provide opportunities to teach children about the value of their own bodies, to develop their safety skills and to enhance their self esteem. Parents and staff should be aware that matters concerning intimate care will be dealt with confidentially and sensitively and that the young persons' right to privacy and dignity is maintained at all times.

Definition

Intimate care is one of the following:

- Supporting a pupil with dressing/undressing
- Providing comfort or support for a distressed pupil

To be the best that we can be ~ together

- Assisting a pupil requiring medical care, who is not able to carry this out unaided
- Cleaning a pupil who has soiled him/herself, has vomited or feels unwell

Supporting dressing/undressing

Sometimes it will be necessary for staff to aid a child in getting dressed or undressed particularly in Early Years and Nursery. Staff will always encourage children to attempt undressing and dressing unaided.

Providing comfort or support

Children may seek physical comfort from staff (particularly children in Nursery and Reception). Where children require physical support, staff need to be aware that physical contact must be kept to a minimum and be child initiated. When comforting a child or giving reassurance, the member of staff's hands should always be seen and a child should not be positioned close to a member of staff's body which could be regarded as intimate. If physical contact is deemed to be appropriate staff must provide care which is suitable to the age, gender and situation of the child.

If a child touches a member of staff in a way that makes him/her feel uncomfortable this can be gently but firmly discouraged in a way which communicates that the touch, rather than the child, is unacceptable.

Medical procedures (See Policy on Medicines)

If it is necessary for a child to receive medicine during the school day parents must fill out a permission form from the school office and discuss their child's needs with a member of staff before the school agrees to administer medicines or medical care. It must be made clear to parents that staff administration of medicines is voluntary.

Any member of staff giving medicine to a pupil should check:

- The pupil's name
- Written instructions provided by parents or doctor
- Prescribed dose
- Expiry date

Particular attention should be paid to the safe storage, handling and disposal of medicines. The Head Teacher has prime responsibility for the safe management of medicines kept at school. This duty derives from the Control of Substances Hazardous to Health Regulations 2002 (COSHH). School staff are also responsible for making sure that anyone in school is safe. Medicines should generally be kept in a secure place, not accessible to pupils but arrangements must be in place to ensure that any medication that a pupil might need in an emergency is readily available.

Soiling

Intimate care for soiling should only be given to a child after the parents have given permission for staff to clean and change the child. Parents may sign a permission form so that staff can clean and change their child in the event of the child soiling themselves (Appendix 1).

If a parent does not give consent, the school will contact the parents or other emergency contact giving specific details about the necessity for cleaning the child. If the parents/carers or emergency contact is able to come within a few minutes, the child is comforted and kept away from the other children to preserve dignity until the parent arrives. Children are not left on their own whilst waiting for a parent to arrive, an adult will stay with them, giving comfort and reassurance. The child will be dressed at all times and never left partially clothed.

To be the best that we can be ~ together

If a parent/carer or emergency contact cannot attend, the school seeks to gain verbal consent from parents/carers for staff to clean and change the child.

If the parents/emergency contacts cannot be contacted the Head Teacher will be consulted. Where it is judged that the child is at some risk, staff will act appropriately and may need to come into some level of physical contact in order to aid the child.

When touching a child, staff should always be aware of the possibility of invading a child's privacy and will respect the child's wishes and feelings.

If a child needs to be cleaned, staff will make sure that:

- Protective gloves are worn
- The procedure is discussed in a friendly and reassuring way with the child throughout the process
- The child is encouraged to care for him/herself as far as possible
- Physical contact is kept to the minimum possible to carry out the necessary cleaning.
- Privacy is given appropriate to the child's age and the situation
- All spills of vomit, blood or excrement are wiped up and disposed of in the appropriate manner
- Any soiling that can be, is flushed down the toilet
- Soiled clothing is put in a plastic bag, unwashed, and sent home with the child

Hygiene

All staff must be familiar with normal precautions for avoiding infection, must follow basic hygiene procedures and have access to protective, disposable gloves.

Protection for staff

Members of staff need to have regard to the danger of allegations being made against them and take precautions to avoid this risk. These should include:

- Gaining a verbal agreement from another member of staff that the action being taken is necessary
- Allow the child a choice in the sequence of care
- Be aware of and responsive to the child's reactions

Safeguards for children

There is an obligation on local authorities to ensure that staff who have substantial, unsupervised access to children undergo police checks. All staff at St George's RC Primary School are DBS checked on application and cannot undertake tasks within school until all checks are completed satisfactorily. The aim of the DBS is to help organisations in the public, private and voluntary sectors by identifying candidates who may be unsuitable to work with children or other vulnerable members of society. Personal and professional references are also required and unsuitable candidates are not permitted to work within the school.

It is not appropriate for volunteers to carry out intimate care procedures. Students should only do so under the supervision of a trained member of staff, following consultation with the student's college supervisors.

This policy links to our safeguarding policy.

To be the best that we can be ~ together

Permission form for the Provision of Care for all children in school

If a child wets or soils themselves while they are at school it is important that measures are taken to have them changed (and if necessary cleaned) as quickly as possible. Staff are experienced and trained at carrying out this task if you wish them to do so or, if preferred, the school can contact you or your emergency contact who will be asked to attend without delay.

St George's RC Primary has an Intimate Care Policy which is available to view on our website (www.stgeorgescrc-york.org.uk), or ask for a copy from the office.

Please fill out the permission slip below stating your preference.

Yours sincerely,

Mrs Dee Statham
Headteacher

Name of Child.....

Class.....

Please delete as appropriate

*I give consent for my child to be changed and cleaned by St George's RC Primary School staff if my child wets/soils themselves whilst in the care of the school.

*I do not give consent for my child to be changed and cleaned if they wet/soil themselves. The school will contact me or my emergency contact and I will organise for my child to be cleaned and changed. I understand that in the event that I (or the emergency contact) cannot be contacted the staff will act appropriately and may need to come into some level of physical contact in order to aid my child.
