

Year 5 Home Learning Activities

- Autumn Term 2023

RE

For the first topic in RE we reflect on all our

Talents and Qualities.

You may wish to re-create a fingerprint mark and name all your qualities and talents.

Or you could think of one quality that you would like to develop. You could then write an action plan. Think about how you are going to develop this quality, how will you know you have developed it, when will you achieve this goal?

Maths

Our focus in maths this term is on place value.

Below is a link to a fun place value game called **Nice or Nasty**.

You could play with your family or friends at home. Remember to adapt the game, so you are generating 6 and 7 digit numbers.

<https://nrich.maths.org/6605>

Remember to also keep practising your times tables.

Reading

Write a book review of a book you have read recently or if you do not want to write, you could record a podcast version.

Spellings

You will have a short spelling test every **Friday**. There will be 10 different words every week from our spelling scheme. Not only do you need to spell the words correctly, but you need to use them frequently in your writing.

History

Our topic this term is the

Anglo-Saxons.

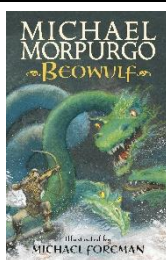

Could you build a miniature model of an Anglo-Saxon village? Or you may wish to become a reporter and write a captivating newspaper article on the mystery of Sutton Hoo burial ground.

Art

As Beowulf is our class text this term, could you sketch, draw,

sculpt or create a ravenous monster like Grendel or the Death- Dragon of the Deep?

Science

We are focusing on Forces this term.

Below is a link which tells you all about the different forces. Can you create a poster or plan a short, exciting forces show which models how each of the forces work.
