

Year 5 Home Learning Activities - Spring Term 1 2024

RE

This term our topic is mission.

Is there an inspirational person who has inspired you? What special service did they commit to do for the good of the people?

You may wish to create a powerpoint to share with the class about them or create an A3 poster.

Spellings

You will have a short spelling test every Friday. There will be 10 different words every week from our spelling scheme. Not only do you need to spell the words correctly, but you need to use them frequently in your writing.

Maths

Our focus in maths this term is still on multiplication and division.

Therefore your times table facts and the inverse facts are still going to be incredibly important. Remember to play TT rockstars and practise recalling your times tables everyday.

How quick can you re-call all the times tables? Can you recall the inverse just as quickly?

Geography

In Geography this term we are learning about the location of different European countries and their capital cities.

You could make your own map showing the location of different European countries and their capital cities. Rather than just colour each country in you may draw on the country's native foods or its flag or write hello in the countries language.

PE

Last term in PE we learnt about the importance of keeping ourselves active.

It would be wonderful if you could set yourself a personal goal to achieve this term that relates to physical activity. It could be to cycle to school every day or to do 50 star jumps everyday in January or even just to walk your dog around the block every other day. I would love to hear what goals you set.
