

Reading

Practise your reading
EVERY NIGHT and you
will become a super
reader. This is **THE
MOST IMPORTANT
homework of all!**

Maths- Measure

Can you gather some data about the length or height of different objects in your house? Measure different items in centimetres and then create a chart to show how many things were longer than 30cm and how many things were shorter than 30cm.

Music

You did a great job learning the words to songs in your Music lessons last half term. We would like to challenge you to learn the lyrics of a favourite song at home and add some actions so you can perform it to your class.

Science

Plant a seed or bulb then keep a diary about its growth and appearance. This could be by drawing or writing what changes you observe each week.

Book Review

Imagine you are working for an important Newspaper. Write a book review for something you have read or enjoyed listening to being read to you.

Remember to say:

- ✓ what was good
- ✓ what was not so good
- ✓ what the best bit was
- ✓ How many stars you would give it

Food From Around the World

Taste food from 5 different countries. e.g. Italy (pizza, pasta, mangoes), France (baguettes, croissants), Mexico (Chilli), China (Spring Rolls), Japan (Sushi). Write a sentence/comment on each you taste and give it a score out of 5 for how you feel about how it looks, tastes, smells and its texture.

Healthy cooking

In class we will be looking at what makes a healthy balanced diet and making your own healthy wraps. What healthy snack could you make at home?

Spellings

Please keep practising the spellings for your weekly spelling check on a Thursday.
You will find these spellings in the yellow book.

The Easter story

In RE we will soon be moving onto the Easter Story. Create a cartoon strip or storyboard to show what happens and practise explaining it so that you can show the rest of the class.
