

Year 5 Home Learning Activities - Summer Term 1 2024

Geography

We have started learning about the world's tallest mountain, Mount Everest.

You could create a factual powerpoint about Mount Everest to present to the class or write your own quiz to host about Mount Everest.

Maths

Below is a game to support you developing your mathematical fluency.

<https://nrich.maths.org/6499>

Spellings

You will have a short spelling test every Friday. There will be 10 different words every week from our spelling scheme. Not only do you need to spell the words correctly, but you need to use them frequently in your writing.

PE

As the weather gets warmer and we learn more about mountains, I thought I would set you an ambitious PE challenge.

I would like you to challenge yourself to climb a mountain in the UK. It could be one of the Yorkshire 3 peaks, the UK 3 peaks or another that stands over 600m tall.

If you reach the summit, I would love to see a picture.

Enjoy climbing to new heights!

D and T

In D&T this term we are learning about the importance of kitchen hygiene and how to use a range of kitchen equipment safely.

Therefore, you could design and write your own recipe that would be beneficial for a mountain climber. You could even try making the dish to see what it tastes like.

Science

In Science, you have been learning about the different life cycles of animals.

You could research the life cycle of your favourite animal and create a poster of it.
